

Ricerca Biosciences announces the addition of Dr. Kazuhiro Anabuki as an agent for Business Development in Japan.

Ricerca Biosciences, a life sciences contract research organization in the USA, announces the addition of Dr. Kazuhiro Anabuki as an agent for Business Development in Japan. He previously was Head of Registration in a Japanese company for almost 25 years until 2013.

Dr. Anabuki will be representing Ricerca's services for both agrochemical and pharmaceutical areas including Chemical Synthesis (including Radiolabeled Synthesis) and contract studies in Environmental Fate, Plant and Animal Metabolism, Mammalian Toxicology and Analytical Characterization.

By having this direct contact in Japan, clients are able to discuss projects and to receive advice regarding registration. Furthermore, this addition also allows registration services such as dossier preparation and Japanese Translation of the study reports. Ricerca welcomes Dr. Anabuki as a means to strengthen their commitment to Japanese Clients. Clients feel free to contact him at following address:

Dr. Kazuhiro Anabuki
Liaison Office for Ricerca Biosciences, LLC
